Presentation:

- A. The objective of "Bucket of Junk" is to create a sculpture using only the items in the bucket. A sculpture is defined as a three-dimensional work of art that can be viewed from 360 degrees.
- B. All sculptures must be submitted presentation-ready to be accepted. Sculptures not meeting this requirement may not be judged.
- C. The judges must know where you used each item in the bucket. Please note, you must use each item. You do not need to use the entire item in your sculpture but there must be enough used to make it visible. The only optional pieces in the bucket are the packaging from different items,

i.e., cardboard packaging, plastic bag, etc. However, if you want to use it, you may, they are just not mandatory.

- D. You may not add any additional items to your sculpture. Only the items in the bucket are permitted to be part of your sculpture. The bucket may not be used as part of the sculpture. There will be a list of contents in each bucket. Please indicate on the list where each item was used. Please return this list completely filled out when you drop off your sculpture.
- E. You can cut, weld, melt, paint, shave, curl, staple, or glue these items to make your sculpture.
- F. You may connect your entry to a solid base for stability, if needed. The base cannot be part of your sculpture. The base must also be smaller than the sculpture and is NOT to be painted. The base will not be considered part of your sculpture so it will not be judged.
- G. The bucket and contents list must be returned when you enter your sculpture, and the bucket may not be used as part of the entry.
- H. Any sculpture larger than 20"L x 20"W will automatically be disqualified.
- I. Your sculpture must be completely finished when it arrives. No painting, construction, etc will be allowed after you bring it in.
